

Designing a Placard

Placards should be triangular in shape, and be able to stand on their own. **On both sides** they should clearly display the following:

If you are an expert or a lobbyist:

1. Your real name
2. Your role (either expert or lobbyist)
3. The committee on which you will be testifying
4. Lobbyists only: A fictional (but reasonable) name of an advocacy group that states your agenda (example: Citizens for Zygote Protection, or Mexican Americans for Immigration Reform, or Abortions for Everyone! You get the picture...)

If you are a Secretary, Whip, Committee Chair, Ranking Member, O'biden, or Majority/Minority Leaders:

On both sides, include the following information:

- Your Senator's Name (Prominent)
- Your Role (Committee Chair, etc)
- Your Party Affiliation
- Your real name (small)
